

**Business and Medical Community**  
**Megan Best**

Heavenly Father,

We thank you for providing freedom to conduct business in this city. We thank you for the opportunities it gives for employment and provision of services. We pray that our business leaders may conduct themselves with wisdom and integrity, that through their work they may be a blessing to others. We pray for those Christians working in business, that the standards by which they conduct themselves they will bring glory to you.

Lord, we also know that in this city we have a world-class standard of medical care, and we thank you for that. We thank you that we have a healthcare system which provides free basic services to all. We pray that you will give those working in the field of medicine great wisdom, humility and compassion as they go about their task, using the gifts you have so generously given them. We pray for justice in the distribution of resources, and that those most in need will be provided for. We pray for those Christians who work in medicine, that you will use them to witness to a loving heavenly Father who has a special concern for the vulnerable.

Lord have mercy on us as we seek to proclaim your name and obey your Son in all we do.

Lord, hear our prayer,

Through Jesus Christ our Lord

Amen.
